👤 Professional Summary

Motivated and detail-oriented MERN Stack Developer with hands-on experience in designing and developing responsive, user-centric web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in building secure and scalable applications with a strong understanding of RESTful APIs, JWT Authentication, MVC Architecture, and modern JavaScript (ES6+). Possess a solid foundation in computer networking fundamentals, including TCP/IP, IP Addressing, DNS, DHCP, LAN, WAN, and basic network troubleshooting. Passionate about writing clean, maintainable code, solving real-world problems, and continuously expanding technical expertise. A quick learner with strong analytical thinking, adaptability, and collaboration skills, committed to delivering high-quality solutions in fast-paced, technology-driven environments.

📁 Professional Experience

Frontend developer, Softkwit Solutions 🔗

06/2025 – Present
Delhi

- Developed responsive and user-friendly web interfaces with accurate, clean, and readable designs.
- Built interactive websites using JavaScript, React.js, and Tailwind CSS.
- Created animated and engaging UI designs to improve user experience and website interaction.
- Optimized websites for responsiveness, performance, and cross-browser compatibility

MERN Full Stack trainee, Ducat

01/2025 – 08/2025
Gurugram

- Developed interactive and responsive UIs using React.js and modern frontend concepts.
- Learned Node.js and Express.js for backend development and REST API integration.
- Worked with MongoDB for database connection, data storage, and management.
- Implemented Context API for centralized state management and understood the complete frontend-to-backend application data flow.

🎓 Education

BCA, Shobhit University Gangoh

Senior Secondary, NIOS

Matriculation, Alpine International School

Technical Skills

Frontend — HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Backend — Node.js, Express.js

Database — My SQL, MongoDB, Mongoose, MongoDB Atlas

Tools — Git, GitHub, VS Code, Postman, npm

Concepts — REST APIs, JWT Authentication, MVC Architecture, CRUD, Debugging, Centerlized Data

AI Integration — Chatgpt, Cloude, Copilot

Cloud Computing — Basic Knowledge of AWS cloud (EC2, Docker Containers, images), Concepts of Cloud services

Other — Knowledge of computer, Internetwork, Outlook, MS Exel & Data Management

Soft Skills

- | | |
|----------------------|-----------------------|
| • Team Collaboration | • Problem Solving |
| • Adaptability | • Attention to Detail |
| • Time Management | • Communication |

Projects

Food Delivery Web Application

- Built a responsive full-stack food ordering platform.
- Implemented secure authentication and role-based authorization.
- Developed REST APIs for products, users, orders, and administration.
- Enhanced application performance and user experience through structured architecture.

Blog Platform (Deployed)

- Developed a MERN Stack blog platform enabling users to securely create, read, update, and delete blog posts through a responsive and intuitive interface.
- Implemented JWT-based authentication, protected routes, and user-specific authorization to ensure secure access and data privacy.
- Designed and integrated RESTful APIs with MongoDB and Mongoose to manage application data efficiently while maintaining integrity and scalability.
- Followed MVC Architecture and clean coding practices to deliver a scalable, maintainable application with seamless frontend-backend integration and an enhanced user experience.

Certificate

MERN Stack Web Development

DUCAT Training Institute, Gurugram (Jan 2025 – Aug 2025)

Languages

- Hindi
- English
